MINORITIES IN CYBERSECURITY NEWSLETTER

ISSUE 1 • OCTOBER 2019 • VOL. 1

Welcome to the first issue of Minorities in Cybersecurity (MiC) newsletter!

Minorities in Cybersecurity is a 501(C)(3) non-profit organization that was developed to help fill the gap that exists in the support and development of women and minority leaders in the cybersecurity field.

Our Mission is to provide practical knowledge, training, and support to our members with the sole purpose of preparing them to become the next generation of global cybersecurity leaders.

Our Vision is to work with our members to offer the training and support necessary to not only break into the cybersecurity field, but also to grow, support, and assist them into management roles, and contribute to them achieving their highest level of career success.

BOOK OF THE MONTH

The October book of the month is, "Bring Your Human to Work: 10 Surefire Ways to Design a Workplace That Is Good for People, Great for Business, and Just Might Change the World" by Erica Keswin

The September 2019 spotlight goes to Apple for becoming our first corporate sponsor.
Thank you,

OCTOBER IS NATIONAL CYBERSECURITY AWARENESS MONTH

If you are in search of tips to promote cybersecurity awareness, the United States Department of Homeland Security (DHS) provides a comprehensive guide to make it easy for individuals and organizations to engage and promote the core theme and critical messages throughout October.
