ABOUT THE CONFERENCE

The MiC Annual Conference is a leadership conference for minority, women, and nonbinary professionals in cybersecurity. Our conference is one of a kind! During our time together we are having honest and crucial conversations focusing on the unique challenges underrepresented talent has in the cybersecurity profession. Organizationally, MiC provides training and support for individuals at all levels to help them grow their cybersecurity career. We limit our event to under 200 professionals to allow our participants the opportunity to build meaningful and lasting relationships which will span their entire career. We've created a safe and trusting space for underrepresented professionals to bring their full selves to the table without fear or trepidation, to thrive as professionals.

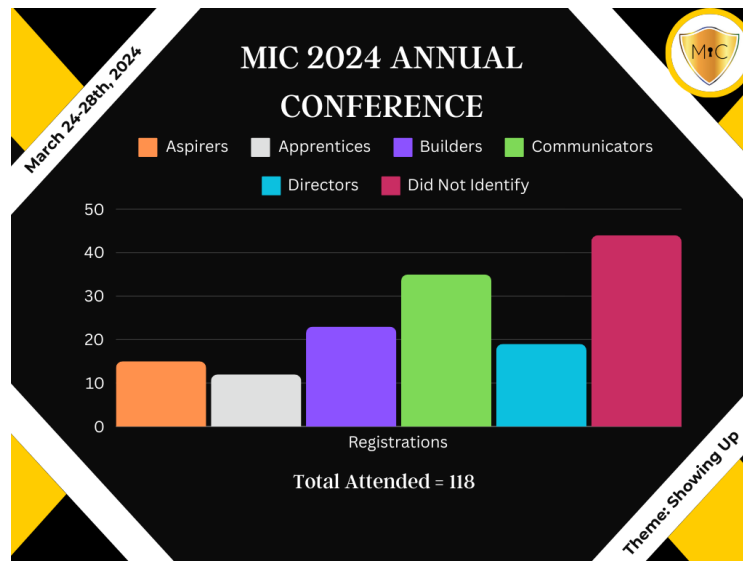

But don't take our word for it here are some of the statements being made about our conference:

- 5) Should any unforeseen event beyond the control of MiC render the fulfillment of this agreement by MiC impossible or impractical, MiC may return a portion of the amount paid for the sponsorship after deduction of any amounts necessary to cover expenses incurred in connection with work performed on production of the EVENT prior to the occurrence of the unforeseen event. Such expenses shall include, but not be limited to expenses incurred by MiC as a result of contracts with third parties for services or products connected with the EVENT, including out of pocket expenses and overhead expenses attributable to production of the EVENT. No funds will be returned should the dates or location of the show be changed by MiC, but the sponsorship benefits will be applied to the EVENT held at the changed location and/or changed date. - 12) Sponsorship is not limited to financial support per se, but can also take the form of provision of material hardware/software etc. Should your company be interested in sponsorship package not listed in this brochure, please feel free to contact us to discuss your preferences.
